刀头及配件 Cutter and accessories

鳄式刀头C220
Alligator Segment C220

特殊合金材料制成,具有重量轻硬度高抗拉强度大等优点,优化的几何设计,使剪切物料时事半功倍。针对物料及不同的工作要求,多种刀头可供选择,操作方便。

Special alloy material, with hardness and light weight advantages of high tensile strength, optimization of geometric design, so that when the effective shear materials. For materials and different job requirements, a variety of head options, easy to operate.

弧形刀头H220
Arc Segment H220

推荐应用

废旧物资拆解
金属、非金属剪切
建筑工地拆解
企业车间下料
消防救援
交通事故援救
水下作业

Recommend Apply

Dismantling of waste and used materials
Metals, non-metallic shear
Builders dismantling
Enterprise Workshop Cutting
Fire Rescue
Accident Rescue
Underwater operations

直线刀头 Z220
Linear Segment Z220

鳄式刀头:除用于切割外,亦可用于扩张撑开。
Alligator Segment: In addition to cutting, but also open for expansion.

弧形刀头:特别适合用于废电线剪切。汽车回收中剪切,拆卸供暖系统,管道拆卸等。
Arc Segment: particularly suitable for shear waste electrical wiring. Automotive Recycling in shear. The demolition of the heating system, plumbing demolition.

直线刀头:家庭用品回收,电器原件回收,剪切扁平材料等更能表现其优秀的性能。
Linear Segment: Recycling household items, electrical Original Recycling, shear flat material, such as better performance of its excellent performance.
